15:30	Price Ceremony					

Competition rules

The rules and conduct of the Swedish Curling Association are applied.

The group games are played 8 ends and may end on equal score for both teams.

Each team will draw to tee at the second last game of the group games.

If two or more teams have the same number of points after the group games, ranking is made by firstly the internal result between the teams, secondly the tee draw results.

The best two teams in each group and the two best threes plays the playoff. The teams are ranked by points, tee draw results, number of rounds won , number of points made and then number of points made by the opponents.

All games in the playoff are played in 8 ends with additional end(s) if there is a tie.

Stone colours and start order is indicated by the tournament management on the match protocols.
